About Us

A4 Clinics is the brain-child of Dr. Abha Agrawal, MD, FACP, FACHE, a New York - based physician. She is an alumna of Harvard and Yale universities, a Fulbright scholar, and an internationally recognized leader in healthcare, health IT and patient safety.

Many people in India suffer from neurological and brain disorders. Our advanced technology enabled program offers an opportunity for recovery from physical and mental difficulties for many people. A4 Clinics' mission is to help people achieve the best quality of life by making advanced technology affordable and accessible to everyone.

*"If you can't fly then run,
 If you can't run then walk,
 If you can't walk then crawl,
 But whatever you do,
 YOU MUST KEEP MOVING."
 - Dr. Martin Luther King, Jr.*
